Elevating Student's Field Research in Art Institute of Chicago

2022 Fall-2023 Spring

Service Design

Introducing the ultimate research companion for art students, particularly those from the School of the Art Institute of Chicago (SAIC), who seek to enrich their educational and research journey at the Art Institute of Chicago. This cutting-edge museum research app has been meticulously crafted to revolutionize the way art students explore, discover, and learn within this cultural treasure trove. We recognize the challenges faced by students in navigating the vast collection and conducting in-depth field research. That's why we've integrated a suite of innovative features to streamline their experience. From real-time navigation and personalized routes for seamless exploration to state-of-the-art artwork recognition and comprehensive research support, this app empowers students to delve deeper into their artistic inquiries. Say goodbye to the limitations of traditional research methods; embrace a new era of efficient and enriched art exploration.
